

HuronTel Windows 98/ME/2000 Internet Configuration Guide - PPPoE

1. Insert the Hurontel Internet CD and install the Enternet 300 software. Simply accept the default settings for the installation.
2. When the installation has completed, restart the computer.
3. When the computer finishes restarting, you will see an **Enternet 300** icon on your desktop. Double click that icon.
4. Double click on Create New Profile.
5. Type in Hurontel. Click on **NEXT**.
6. Now, enter your username and password into the appropriate boxes. Remember to turn your CAPS LOCK off, and use the TAB key to move between boxes. Do not press ENTER or you will lose information. Click on **NEXT** when you are finished.
USERNAME: _____@hurontel.on.ca
If you would like to bypass the protection provided by our firewall, you may need to precede your username with "ip/"
Example: ip/username@hurontel.on.ca. This can be changed at any time.
PASSWORD: _____
7. If prompted to, click on **NEXT**, otherwise click on **FINISH**.
8. If you would like the internet to connect automatically when you start your computer, click on the **Connections** menu and select **Settings**. Click on the first two check boxes and click **OK**.
9. Double click on the Hurontel icon to connect to the internet.
10. Close Enternet 300 and Open Outlook Express to setup your email.
11. If a wizard opens asking for a display name, skip to step 14.
12. Click on the Tools menu and select Accounts.
13. Click on the Add button and select Mail.
14. For your display name, enter your real name as you would like it to appear in the FROM box in messages you send such as John Smith or ABC Company, and click **NEXT**.
15. Enter your e-mail address when prompted. Make sure you use all lower case letters (CAPS lock off). Click on **NEXT** when you are finished entering your e-mail address.
YOUR E-MAIL ADDRESS IS: _____@hurontel.on.ca
16. Now, make sure your mail server type is **POP3**, and then enter your incoming and outgoing mail server names, including the separating periods. Click **NEXT** when you are complete.
Incoming Mail Server (POP3): **mail.hurontel.on.ca**
Outgoing Mail Server (SMTP): **smtp.hurontel.on.ca**
17. On the Internet Mail Logon screen, enter your POP account information including username and password (the same as up in step 6 above) and click on **NEXT**.
18. Once you click on **FINISH**, you are ready to connect to the Internet. Double click on the Internet Explorer icon to begin.
