

HuronTel Windows Vista Internet Configuration Guide-PPPoE

1. Close all program windows and start from the desktop. Click on **Start**, **Control Panel**, **Network and Internet**, **Network and Sharing**.
2. Click on **Setup a Connection or Network**.
3. Select the first option, "Connect to the Internet" and click on **NEXT**.
4. If you see the "You are already connected to the Internet" screen, either you already have a connection or Windows Vista is mistaken. Click on **Setup a Dial-Up Connection Anyway**.
5. Select the third option, "Connect using a broadband connection that is always on" and click **NEXT**.
6. Click on **Broadband PPPoE**.
7. Now, enter your username and password into the appropriate boxes. Under "Connection Name", call the connection **HuronTel**. When finished, click on **Connect**.
Remember to turn your CAPS LOCK off, and use the TAB key to move between boxes. Do not press ENTER or you will lose information. The "Show Characters" tickbox allows you to check the password is typed correctly. The "Allow other people to use this connection" is optional, but should be ticked unless you want to prevent other accounts on your PC from your HuronTel connection.
USERNAME: _____ **PASSWORD:** _____
8. Click on **Close**.
9. To connect, click on **Start**, **Connect To**, **HuronTel**, **Connect**.
10. Open Windows Mail. It can normally be found on the start menu or under "All Programs".
11. If you are asked for a Display name, go straight to step 12. Otherwise, click on the Tools menu and select Accounts. Click on the New button on the right.
12. For your display name, enter your real name as you would like it to appear in the FROM box in messages you send such as John Smith or ABC Company, and click **NEXT**.
13. Enter your e-mail address when prompted. Make sure you use all lower case letters (CAPS lock off). Click on **NEXT** when you are finished entering your e-mail address.
YOUR E-MAIL ADDRESS IS: _____ **@hurontel.on.ca**
14. Now, make sure your mail server type is **POP3**, and then enter your incoming and outgoing mail server names, including the separating periods. Click **NEXT** when you are complete.
Incoming Mail Server (POP3): **mail.hurontel.on.ca**
Outgoing Mail Server (SMTP): **smtp.hurontel.on.ca**
15. On the Internet Mail Logon screen, enter your POP account information including username and password (the same as up in step 7 above) and click on **NEXT**.
16. Once you click on **FINISH**, you are ready to connect to the Internet. Double click on the Internet Explorer icon to begin.
