

HuronTel Windows XP Internet Configuration Guide-PPPoE

1. Close all program windows and start from the desktop. Click on **Start**, **All Programs**, **Accessories**, **Communications**, **New Connection Wizard**.
2. Click on **NEXT**.
3. Select the first option, "Connect to the Internet" and click on **NEXT**.
4. Select the second option, "Setup my connection manually" and click on **NEXT**.
5. Select the second option, "Connect using a broadband connection that requires a user name and password" and click **NEXT**.
6. For the ISP Name, type HuronTel High Speed into the box and click on **NEXT**.
7. Enter your user name and password in the appropriate boxes, and click on **NEXT**.
USERNAME: _____@hurontel.on.ca
If you would like to bypass the protection provided by our firewall, you may need to precede your username with "ip/"
Example: ip/username@hurontel.on.ca. This can be changed at any time.
PASSWORD: _____
8. Put a check mark in the box marked, "Add a shortcut to this connection to my desktop."
9. Click on **FINISH**.
10. Open Outlook Express. It can normally be found on the start menu or under "All Programs".
11. If you are asked for a Display name, go straight to step 12. Otherwise, click on the Tools menu and select Accounts. Click on the Add button on the right and select Mail.
12. For your display name, enter your real name as you would like it to appear in the FROM box in messages you send such as John Smith or ABC Company, and click **NEXT**.
13. Enter your e-mail address when prompted. Make sure you use all lower case letters (CAPS lock off). Click on **NEXT** when you are finished entering your e-mail address.
YOUR E-MAIL ADDRESS IS: _____@hurontel.on.ca
14. Now, make sure your mail server type is **POP3**, and then enter your incoming and outgoing mail server names, including the separating periods. Click **NEXT** when you are complete.
Incoming Mail Server (POP3): **mail.hurontel.on.ca**
Outgoing Mail Server (SMTP): **smtp.hurontel.on.ca**
15. On the Internet Mail Logon screen, enter your POP account information including username and password (the same as up in step 7 above) and click on **NEXT**.
16. Once you click on **FINISH**, you are ready to connect to the Internet. Double click on the Internet Explorer icon to begin.
